Practice Facility Accreditation Committee Policy: Ratification of Previous Decision

Published December 10, 2019

Preamble

The Practice Facility Accreditation Committee occasionally makes decisions which are contingent on the occurrence or non-occurrence of a future event. Rather than evaluate the future event for occurrence or non-occurrence as a whole, the Committee recognizes efficiencies in delegating the evaluation to either the Committee Panel of three members, or to the Registrar/Deputy Registrar.

Policy

Where the evaluation of the occurrence of a future event is straightforward or quantitative and not requiring discretion, the Deputy Registrar or Registrar may evaluate and ratify the Committee's decision. Where the evaluation of the future event is discretionary and qualitative, the Committee's Panel may ratify the previous decision.

This policy was passed by Council on December 6, 2019 pursuant to Bylaw s. 1.2(4) following its proposal by the Practice Facility Accreditation Committee under the authority of Bylaw s. 1.50(2)(d)."
